community-groups/](https://opoutere.org.nz/community-groups/)

*to see how our values
have been put into
action*

A Community Collective Commitment (CCC) is planned for the Opoutere beach reserve (pine forest). The CCC aims to define community core values to help shape policy for the future management and funding for this area.

The CCC process invites us to participate – as community groups or as individuals. There is a facilitated community meeting in the Opoutere School Hall on January 11 2020, 10am to 3pm. BYO lunch. Tea/coffee provided.

This date won't suit all ORRA members so ORRA representatives will attend to present our values. We plan to use the objectives as set out in our Constitution as a basis for this. These are:

- The preservation of the special character of Opoutere/Ohui to ensure it remains an unspoiled rural and natural coastline and estuarine environment.
- The protection of the flora and fauna and the natural physical environment.
- To support and co-operate with the government agencies and other organisations having similar objectives.

Is there anything else that you feel should be covered in our values statement towards the CCC? Please send your thoughts to our acting chair: tvherberttv@gmail.com , or come to the ORRA AGM.

We'll be discussing and ratifying our values statement at the ORRA AGM, 2 January 2020.

Look forward to seeing you all there!
